Lead Product Designer: Blending UX, UI, and front-end to build accessible, simple and scalable experiences. From design systems, user interface, customer flows to A/B testing, personalization and template creation.

Experience and Impact

Callaway Golf Interactive - Austin TX | Full-time · 6 yrs 10 mos

Interactive Design Manager | Feb 2024 – Present

Managed a cross-functional design team, mentoring designers to deliver innovative solutions. Collaborated with email and merchandising teams on planning, design briefs, and project selection to align with business objectives.

- Led the redesign of the Callaway Golf Preowned website, leading to a **16.2%** increase in add-to-cart rate, on the Advanced Search experience..
- Built an **AI-Powered all-in-one email tool**. It consolidated six different tools into one and reduced the 'brief-to-build' time from hours to under **2 hours**.
- Created a Monday board to track key metrics related to project status, request types, and priority, which identified opportunities to improve in-house processes and **increase team productivity**.
- Assisted with CMS migrations across all brands by participating in pre-execution briefs and conducting post-execution quality assurance testing.
- Involved on frequent roadmap planning meetings, ticket prioritization, design briefs and weekly goal analytics.
- Transitioned and trained part of my group to manage the visual front-end edits independently to avoid redundancy and free up front end developers to focus on projects of strategic importance.
- Supported BFCM campaigns but also created custom visual experiences for CGPO, helping hit a milestone of **\$1M in sales in one day**.

Interactive Design Lead | Apr 2021 – Feb 2024

Acted as the bridge between design and development, ensuring project execution and brand consistency. Led A/B testing, personalization, and marketing page creation for four brands.

- Implemented A/B testing across four brands to drive data-informed design decisions, enhancing user experience and increasing email **conversions by 20%** through dynamic category hero circles compared to a generic hero..
- Conducted QA for marketing pages, ads, and digital assets, ensuring quality and brand alignment.
- Optimized CGPO templates and streamlined homepage layout, resulting in a **2-second faster** page load time, directly improving user experience and engagement
- Managed key projects such as program customs, overseeing the creation of 80+ unique SVG graphics per year, all completed on time despite varying complexities.
- Grew the team from **2 to 4** members, developing comprehensive onboarding training and documentation to streamline processes and enhance efficiency.

Front-End Web Developer | Jun 2019 – Apr 2021

Developed and maintained web pages and interactive features for Callaway's platforms, ensuring performance, accessibility, and brand consistency.

- Maintained merchandise marketing templates to make content creation more efficient
- Improved interactive features like the store locator and golf club selector tool to increase user engagement.
- Developed graphics for Toulon Garage program to support its success and enhance communication.
- Bug fixes, optimization of site performance, ADA compliance, and general maintenance of the site.

Interactive Designer | *Mar 2018 – Jun 2019*

Led the design and development of digital assets for email campaigns, social media, and promotions, ensuring brand consistency and boosting user engagement while maintaining efficiency.

- Redesigned and delivered responsive email templates, improving accessibility, brand consistency, and mobile experience. Reduced file size by **25%** and cut scrolling by **40%**.
- Optimized email design processes with reusable snippets, cutting development time by **60%** and streamlining project delivery. This led to a **20%** increase in email production by year-end.
- Conducted UX/UI research and ensured accessibility with improvements meeting localization and ADA requirements.
- Fixed Dark Mode and mobile issues, improving readability and layout for all users. Optimized Dark Mode for Gmail, resulting in a consistent experience across platforms.

Earlier Experience | *2013 - 2019*

- **Amazon FBA & E-Commerce** | *2017* | Developed and marketed dropshipping, white-label, and original products, gaining insights into the intersection of design and business..
- **Eloquent Inc.** | *2015- 2016* | Transitioned to UI Design Lead, managing web and printed design, production, and client relations. Gained experience in scaling design and its business impact.
- **Fastsigns** | *2013-2015* | Lead Graphic Artist, balancing creative design with production efficiency, with a typical project turnaround of 1-2 days.
- **WoodRockz** | *2014* | Started a music-themed décor brand. Grew from **\$100 to 6K** a month within one year, on a part-time basis. Learned about entrepreneurship and marketing.
- **Fidelitas Design Agency** | *2013* | Interned in my first professional design environment, where I developed skills in client communication, design workflows, and meeting tight deadlines.
